

## BESS project financing options in Poland 2026

How much money is needed to support Poland's Bess project?The European Commission has approved a EUR1.2 billion aid package to support Poland's rollout of BESS, aiming to establish at least 5.4 GWh of storage capacity. When will the energy storage scheme be launched in Poland?Call for applications under the Scheme "Energy storage facilities and related infrastructure for improving the stability of the Polish electricity grid" will be launched already this year. Subsidy contracts are to be entered into by the end of , while the period for spending the funds ends with . How much PLN is available for energy storage in Poland?PLN 4 billion available. On 23 July , the National Fund for Environmental Protection and Water Management put under public consultation a new priority aid scheme entitled: "Energy storage facilities and related infrastructure for improving the stability of the Polish electricity grid". What does Bess stand for?by Magdalena Skurowska The call for proposals of projects to be subsidised under the Energy Storage Systems scheme financed from the National Recover and Resilience Plan opened on 17 February . The scheme's objective is to build a large-scale battery energy storage system (BESS). Who can apply for energy investment aid in Poland?Eligible applicants include entrepreneurs registered in Poland, municipal companies with local government participation, and members of energy cooperatives. The aid may be granted on condition that the investment project has not been commenced before March 9, . Will energy storage systems projects be subsidised under the National recover & Resilience Plan?The call for proposals of projects to be subsidised under the Energy Storage Systems scheme financed from the National Recover and Resilience Plan opened on 17 February . More &#187; Grant funding of PLN 3.735 billion and loans of PLN 415 million are available, covering up to 45% of project CAPEX. The final results are expected in early Q4. Revenue Streams, Financing and Subsidies for LS BESS in Poland Join us to discover current status and development prospects of the energy storage market in Poland, key insights into investment processes for LS BESS, revenue streams and comprehensive guidance on accessing funding from top subsidy The call for proposals of projects to be subsidised under the Energy Storage Systems scheme financed from the National Recover and Resilience Plan opened on 17 February . The scheme's objective is to build a large-scale battery energy storage system (BESS). What projects are eligible for the The European Commission has approved a EUR1.2 billion aid package to support Poland's rollout of BESS, aiming to establish at least 5.4 GWh of storage capacity. This significant investment is part of a broader strategy to position Poland as an attractive market for energy storage developers On 23 July , the National Fund for Environmental Protection and Water Management put under public consultation a new priority aid scheme entitled: "Energy storage facilities and related infrastructure for improving the stability of the Polish electricity grid". The funding under the Scheme is Poland's National Fund for Environmental Protection and Water Management (NFO?iGW) on Friday opened a call for applications for a major PLN-4.15-billion (USD 1.09bn/EUR 0.98bn) energy storage co-financing programme backed by the EU's Modernisation Fund. Battery energy storage systems (BESS) The European Commission has approved a Polish scheme to support investments in electricity storage systems worth 1.2 billion

euros. This is stated in a message on the website of the European Commission. The scheme was approved under the Temporary Crisis and Transition Framework (TCTF), adopted by New Subsidy schemes for Battery Energy Storage Eligible applicants include entrepreneurs registered in Poland, municipal companies with local government participation, and members of energy cooperatives. The aid may be granted on condition that the investment project Revenue Streams, Financing and Subsidies for LS BESS in Join us to discover current status and development prospects of the energy storage market in Poland, key insights into investment processes for LS BESS, revenue streams and Subsidies for energy storage systems | R&#246;dl & PartnerThe call for proposals of projects to be subsidised under the Energy Storage Systems scheme financed from the National Recover and Resilience Plan opened on 17 Poland secures EUR1.2 billion EU aid for energy The European Commission has approved a EUR1.2 billion aid package to support Poland's rollout of BESS, aiming to establish at least 5.4 GWh of storage capacity. Aid scheme for construction of electricity storage Call for applications under the Scheme "Energy storage facilities and related infrastructure for improving the stability of the Polish electricity grid" will be launched already Poland opens EUR 980m energy storage subsidy schemeInterested parties have until May 30 to apply for the energy storage and related infrastructure programme that seeks to enhance the stability of Poland's national power grid Subsidies for energy storage systems | R&#246;dl & PartnerThe call for proposals of projects to be subsidised under the Energy Storage Systems scheme financed from the National Recover and Resilience Plan opened on 17 Europe drives BESS market strengthThe Romanian and Bulgarian governments launched their first round of BESS project bidding in February and March , with project scale reaching 240 MW/480 MWh and 350 MW respectively. In the European energy Battery energy storage systems (BESS) on the rise in As expected, Poland's latest capacity market auctions have highlighted a significant shift towards the battery energy storage systems (BESS) beside the fact that the de-rating factor has been significantly decreased. The Germany's first tolled BESS secures project financingThe 209 MWh Stendal battery energy storage project is expected to be fully operational by early , one year before its seven-year tolling agreement comes into effect. The rise of bankable BESS projects in Europe As the renewable energy sector rapidly evolves, battery energy storage systems (BESS) are emerging as a critical pillar for decarbonization. However, with capital constraints and rising market Poland to lead battery storage deployments in Eastern Poland is set to lead Eastern Europe's battery storage market, with 9GW offered grid connections and 16GW in the capacity auctions. Outlook : The future of the utility-scale BESS marketRevenue floor agreements are generally preferred where debt financing for a standalone BESS project is sought. European BESS projects can also benefit from capacity market mechanisms that certain countries (such as Aid scheme for construction of electricity storage On 23 July , the National Fund for Environmental Protection and Water Management put under public consultation a new priority aid scheme entitled: "Energy storage facilities and BYD to supply 1.6 GWh of battery storage for The Polish arm of Portugal's Greenvolt Group has joined hands with China's BYD on a 400 MW/1.6 GWh

## BESS project financing options in Poland 2026

battery energy storage system (BESS) deployment in Poland. The BESS Brief - Part 2: BESS Financing is Entering a New Phase Today, we are seeing non-recourse project finance for 600+ MW portfolios, mezzanine debt entering the capital stack, and public banks co-financing with private lenders. BESS in Germany and Beyond: Use Cases, Germany's BESS Installations Types (as of ) Total Grid-Scale BESS Capacity and Forecast (in GWh) Bundesverband Solarwirtschaft (BSW) forecasts an additional ~7 GWh of grid-scale BESS capacity by . Greenvolt Power signs agreement with BYD Energy Storage to Greenvolt Group, through Greenvolt Power, a company specializing in utility-scale wind, solar and energy storage projects, has signed an agreement with BYD Energy Poland's new capacity market auction could hamper BESS The draft parameters for this year's capacity market auction in Poland could make the rollout of battery energy storage systems (BESS) much more difficult. The document Statera obtains debt funding for 600MWh UK BESS Statera Energy has received up to £300m of debt financing from Lloyds Bank to develop a BESS and flexible generation project in the UK SS in Germany and Beyond: Use Cases, Germany's BESS Installations Types (as of ) Total Grid-Scale BESS Capacity and Forecast (in GWh) Bundesverband Solarwirtschaft (BSW) forecasts an additional ~7 GWh of grid-scale BESS capacity by . Greenvolt Power signs agreement with BYD Energy Greenvolt Group, through Greenvolt Power, a company specializing in utility-scale wind, solar and energy storage projects, has signed an agreement with BYD Energy Storage, one of the largest suppliers of Battery Poland's new capacity market auction could hamper The draft parameters for this year's capacity market auction in Poland could make the rollout of battery energy storage systems (BESS) much more difficult. The document proposes a significant reduction to the BESS
