High Voltage Industry Tariff. How can Ethiopia improve electricity access & reliability? Improving electricity access and reliability are fundamental to ensuring that Ethiopia meets its growth and poverty reduction ambitions. The government has started to make major investments in the power sector, and has recently embarked on electricity tariff reform to increase cost-recovery and improve the quality of electricity services. Does Ethiopia have enough electricity? However, many homes and businesses in the country still lack access to sufficient power supplies, even for basic services like lighting. According to Tracking SDG7: The Energy Progress Report, in , only 48% of Ethiopia's population had access to electricity. There was a stark urban/rural disparity: 93% versus 36% respectively. What is Ethiopia doing to increase its electricity capacity? Ethiopia has engaged with several development partners with the aim of maximising its installed capacity, and the government is pursuing public-private partnerships and encouraging private sector participation in the electricity sector. Does Ethiopia have a tariff reform? To improve the quality of electricity services, the Ethiopian government recently embarked on tariff reform. The government-owned Ethiopian Electric Utility (EEU) revised its electricity prices in December , with a minor price increase for the first 12 months, followed by a steeper increase for the following 36 months. The residential electricity price in Ethiopia is ETB 0.349 per kWh or USD 0.003. The electricity price for businesses is ETB 1.223 kWh or USD 0.010. These retail prices were collected in March and include the cost of power, distribution and transmission, and all taxes and fees. The residential electricity price in Ethiopia is ETB 0.349 per kWh or USD 0.003. The electricity price for businesses is ETB 1.223 kWh or USD 0.010. These retail prices were collected in March and include the cost of power, distribution and transmission, and all taxes and fees. The residential electricity price in Ethiopia is ETB 0.658 per kWh or USD 0.005. The electricity price for businesses is ETB 1.611 kWh or USD 0.011. These retail prices were collected in December and include the cost of power, distribution and transmission, and all taxes and fees. Compare According to the statement, starting in April, residential customers consuming up to 0.50 kWh will see their tariff increase to 0.60 cents per kWh. Additionally, service fees will also rise, with postpaid customers paying 10 ETB and 95 cents, while prepaid customers will pay 4 ETB and 18 cents. For The residential electricity price in Ethiopia is ETB 0.349 per kWh or USD 0.003. The electricity price for businesses is ETB 1.223 kWh or USD 0.010. These retail prices were collected in March and include the cost of power, distribution and transmission, and all taxes and fees. Medium Voltage In , the average tariff was readjusted to Birr 2 per kWh (0.07 USD per kWh*). Due to the devaluation of Birr against USD, the average
