

Why is energy storage growing in Bulgaria? Energy storage in Bulgaria is expanding rapidly as the government awards nearly 10 GWh of capacity to 82 projects, boosting renewable energy reliability and grid stability. How much money does the NRRP provide for energy projects in Bulgaria? Under the RESTORE initiative, launched through Bulgaria's National Recovery and Resilience Plan (NRRP), the Ministry of Energy has selected 82 projects that will collectively receive BGN 1.15 billion (approximately \$675 million) in public funding. How will the selected storage systems be distributed in Bulgaria? The selected storage systems will be geographically distributed across Bulgaria and connected either to the national transmission grid or local distribution networks. All awarded projects must be operational by March . How much funding does Bulgaria have for a decarbonization project? Grant funding is capped at BGN 148.6 million per project, covering up to 50% of eligible costs, and limited to BGN 371,607.70 per MWh of usable capacity (excluding VAT). This tender marks a significant milestone in Bulgaria's broader decarbonization agenda. What is the deadline for submitting project proposals in Bulgaria? The deadline for submission of project proposals was December 5, . The Bulgarian Ministry of Energy announced on December 6 that it has received 151 project proposals worth nearly BGN 5 billion, which far exceeded the available funding of BGN 1.154 billion. Of the submitted proposals, 118 projects--totaling BGN 1.6 billion--were shortlisted. How many MWh will a new energy storage project deliver? The selected projects will deliver a total usable energy storage capacity of 9,712.89 MWh, the Ministry of Energy said on April 17, more than three times the minimum target of 3 GWh originally set by the tender. The deadline for submission of project proposals was December 5, . Bulgarian tender awards nearly 10 GWh of energy storage Bulgaria will finance 82 standalone renewable energy storage projects worth over 1.15 billion lev (\$675 million) under its EU-funded procurement exercise named RESTORE. Grant financing of renewable electricity storage infrastructure Ranking of projects: based on the requested grant per 1 MWh of usable electrical energy storage capacity, as proposals are ranked in ascending order of the requested grant per unit of usable capacity. Bulgaria finalises EUR600m funding for 10GWh of energy storage This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on the increasing integration of energy storage into regional grids, evolving Energy Storage in Bulgaria Surges with 9.7 GWh Under the RESTORE initiative, launched through Bulgaria's National Recovery and Resilience Plan (NRRP), the Ministry of Energy has selected 82 projects that will collectively receive BGN 1.15 billion Bulgaria awards EU funds to 249 projects for renewables with Under two calls in Bulgaria, developers of 249 projects will receive EUR 268 million in total state aid. The programs are for renewable electricity plants with energy storage Financing agreed for 107 MWh of battery projects in Bulgaria A joint venture of Bulgarian-German solar park installer SUNOTEC and Bulgarian holding company Eurohold Bulgaria (BUL:EUBG) has sealed financing agreements to support Inea Consulting Ltd. is Engaged in the Technical Design and According to the terms of the agreement, Inea Consulting Ltd. has the right to present this battery energy storage system (BESS) project, which is in the mid-development

Bulgaria launches consultation on 1.9 GWh energy storage subsidy Bulgaria's Ministry of Energy has launched a public consultation on a new subsidy program seeking to support the construction and commissioning of standalone CMS Sofia advises on EUR40M BESS financing in Bulgaria CMS Sofia acted as the lead legal advisor to DSK Bank AD (part of the OTP Group) and the sponsors -- leading Bulgarian renewable energy developers -- in connection The Project Financing Outlook for Global Energy Similar to other renewable energy projects, the addition of construction bridge debt provides an additional source of capital to pay construction costs, but also adds complexity to the project financing of an An Outlook on : Energy in Bulgaria CEELM: What are the main/largest energy projects you expect to be finalized in Bulgaria in ? Piperkova: To name a few, we expect to have the first Enka project in Bulgaria - the Kameno 40-megawatt peak photovoltaic project - in Energy Outlook : Energy Storage IRENA also released an Innovation Outlook on Thermal Energy Storage, further supporting advancements in this critical area. A strong outlook for In summary, the energy storage market in will be shaped by Project Financing in Renewable Energy: A Complete Learn all about project finance, key concepts, evolution, challenges, and future trends in the clean energy sector in this ultimate guide. EERE Funding Opportunities The Office of Energy Efficiency and Renewable Energy (EERE) invests in research and development to lower the cost of energy technologies, protect the private sector from financial risk, and help America build and sustain an Bulgarian Governmental Strategy in the energy sector On 24 February , the Government of the Republic of Bulgaria adopted and published its - Strategy. The document provides for the adoption of the long-awaited strategy for Thermal Energy Storage | Buildings | NREL An inter-office energy storage project in collaboration with the Department of Energy's Vehicle Technologies Office, Building Technologies Office, and Solar Energy Technologies Office to provide foundational science Construction: Bulgaria - EECFA - BuiLdecon Another project with an implementation period till is dubbed "Program for the financing of single renewable energy measures in single-family and multi-family buildings". Bulgaria Unveils the Largest Battery Storage System Bulgaria has officially inaugurated the largest battery energy storage system (BESS) in the Balkans, boasting a capacity of 496.2 MWh. This groundbreaking facility, located in Lovech, is set to enhance the stability of the Bulgaria launches call for grants for standalone energy storage units Bulgaria prepared EUR 589 million in grants for standalone energy storage projects. The deadline for applications is November 21. Bulgaria installs over 9 GWh of batteries, with over half a billion Bulgaria will finance 82 independent renewable energy storage projects worth over 1.15 billion leva (588 million euros) under the EU-funded program called RESTORE, the Energy Storage Financing: Advancing Contracting in Energy The Energy Storage Financing study series is an outreach effort to the financial industry to help reduce and mitigate the risk of investing in energy storage technologies and projects. Bulgaria Unveils the Largest Battery Storage System Bulgaria has officially inaugurated the largest battery energy storage system (BESS) in the Balkans, boasting a capacity of 496.2 MWh. This groundbreaking facility, located in Lovech, is set to enhance the stability of the Bulgaria installs over 9 GWh of

batteries, with over Bulgaria will finance 82 independent renewable energy storage projects worth over 1.15 billion leva (588 million euros) under the EU-funded program called RESTORE, the Energy Ministry in Sofia announced last week. Energy Storage Financing: Advancing Contracting in Energy The Energy Storage Financing study series is an outreach effort to the financial industry to help reduce and mitigate the risk of investing in energy storage technologies and projects. Bulgarian Tender Awards Nearly 10 GWh of Energy Storage These projects will deliver a combined usable energy storage capacity of 9,712.89 MWh, exceeding the program's initial target of 3,000 MWh by more than threefold. The Project Financing Outlook for Global Energy Projects Both the US and global energy storage markets have experienced rapid growth over the last year and are expected to continue expanding. An estimated 650 gigawatts (GW) (or 1,877 gigawatt-hours) of new Bulgaria Country Strategy -30 Green infrastructure projects (such as renewable energy generation and storage, green transport investments), CCS or large industrial green projects etc. may require InvestEU guarantees or OMV Petrom and Eneer Form Joint Venture for Major Solar and Storage Austrian renewable energy firm Eneer and Romanian oil and gas company OMV Petrom have agreed to jointly develop a large-scale solar and battery storage project in north Bulgaria: OMV Petrom expands regional presence by OMV Petrom, the largest integrated energy producer in South-Eastern Europe, and Eneer become partners in a large-scale photovoltaic project located in Byala Slatina, near
