

residential ESS cost breakdown in Iran 2025

How much does a house cost in Iran? Tehran commands the highest property prices in Iran, with average costs ranging from \$1,100 to \$1,475 per square meter as of mid-. Luxury areas like Elahiyeh in northern Tehran reach \$1,400 to \$1,500+ per square meter, making them among the most expensive residential locations in the country. How much do people spend on housing in Iran? People living in Iran typically spend from 13% to 32% of their total monthly expenditure on housing with 24% being the average. The average spend on housing is 5.7M IRR with expenditure ranging from 570,000 IRR to 86M IRR. This cost mainly goes for rent but it also includes other accommodation-related expenses. How much does Tehran cost per square meter? In the last year alone, Tehran prices rose from approximately \$950 per square meter in September to over \$1,100 per square meter by February, representing a nearly 16% increase in just five months. Despite these price increases, the market has entered what experts describe as "deep stagnation" with significantly reduced buyer demand. Are property prices rising in Tehran? Over the past five years, Tehran property prices have surged by approximately 1,700% from to according to some reports, though this figure reflects both nominal price increases and significant currency devaluation effects against the US dollar. How much does a luxury apartment cost in Iran? Recent property transactions across Iran demonstrate the significant price variations between affordable and luxury market segments. In affordable neighborhoods like southern and eastern Tehran, a 75 square meter apartment that's 30 years old costs approximately 30 billion rials (\$38,400). What is the average monthly expenditure in Iran? The average monthly expenditure for individuals on electricity, water, and gas in Iran ranges between 140,000 IRR and 11M IRR with average being 1M IRR, meanwhile the expenditure of couples is slightly higher at 1.1M IRR with 150,000 IRR and 13M IRR being the upper and lower limits respectively. Discover the cost of living in Iran. Compare prices for housing, food, transportation, and more. Get detailed insights about expenses in Iran. Summary of cost of living in Iran: The estimated monthly costs for a family of four are 1,202.0\$, excluding rent. The estimated monthly costs for a single person are 336.8\$, excluding rent. Cost of living in Iran is, on average, 65.9% lower than in United States. Rent in Iran is, on average, 81.3% To calculate each city's Price Index value, we start by assigning a value of 100 to a central reference city (that happens to be Prague). Once the reference point has been established, the Price Index value of every other city in the database is calculated by comparing their cost of living to the The monthly rental cost of a studio apartment in Iran ranges between 2.1M IRR and 8.3M IRR, meanwhile the cost of monthly rental of a one-bedroom apartment can be anywhere from 3.1M IRR to 12M IRR. Two-bedroom rentals rate ranges between 4.2M IRR and 17M IRR per month. The monthly rental for a Taking into consideration basic monthly utilities like electricity, water, heating, and cooling, it all amounts to 31\$ a month, which is very affordable for a normal-sized apartment of about 85m². Monthly internet is somewhat expensive in comparison to that. If you want to spend some quality time Property prices in Iran vary dramatically by location and type, with Tehran apartments averaging 680-850 million IRR per square meter (\$1,100-\$1,350) while luxury areas reach 1,200-1,500 million IRR
