

## standalone energy storage tender price in Spain 2026

How much does Spain spend on energy storage projects?The government of Spain is launching two programmes with EUR280 million in grants for standalone energy storage projects, thermal and PHEs. Will pumped hydro energy storage go online in ?One of the two programmes will be directed towards pumped hydro energy storage. Image: MITECO. The government of Spain is launching EUR280 million (US\$310 million) in grants for standalone energy storage projects, thermal energy storage and reversible pumped hydro to go online in . Will Spain get 20GW of new energy storage by ?Spain is targeting 20GW of new energy storage by . MITECO also launched a similarly-sized grant scheme specifically for co-located or hybridised energy storage projects, for which proposals were due in March . Enel Green Power submitted two projects during the first quarter which fit the criteria, totalling 60MWh and 38MWh respectively. How much money will Spain get from a battery project?Some 35 battery sites with a total scale of 690.2 MW/2.82 GWh will receive EUR150 million under the program. A further 10 thermal storage sites will receive EUR6.48 million and add 88.35 MW/591.27 MWh of capacity to Spain's grid. All the projects will be operational in either or . How much power will Spain's energy storage projects add to the grid?The 45 battery and thermal energy storage projects allocated European Union subsidies will add more than 779 MW/3.4 GWh of capacity to the Spanish grid. Spain launches two energy storage programmes with The government of Spain is launching EUR280 million (US\$310 million) in grants for standalone energy storage projects, thermal energy storage and reversible pumped hydro to go online in . 811 MW/3.6 GWh of storage projects set for Spain's PERTE fundingPending approval, a total of EUR 167.6 million (\$187.1 million) has been allocated toward 46 standalone thermal and electrical energy storage projects, with a cost Spanish government allocates 280 million euros for The Spanish government will allocate 280 million euros (\$310 million) for stand-alone energy storage, thermal storage and reversible pumped hydro storage projects, which are due to come online in . port of Spain pumped energy storage project tenderThe government of Spain is launching EUR280 million (US\$310 million) in grants for standalone energy storage projects, thermal energy storage and reversible pumped hydro to go online in Spain seeks thermal energy storage proposals by The government of Spain is launching EUR280 million (US\$310 million) in grants for standalone energy storage projects, thermal energy storage and reversible pumped hydro to go online in . Spain offers EUR 700m in aid for large-scale energy Maximum eligible costs per storage unit range from EUR 250/kWh for stand-alone storage to EUR 1,500/kWh for new pumped-storage hydropower projects. Aid will be distributed by region, with higher allocations to Spain seeks thermal energy storage proposals by SeptemberThe government of Spain is launching EUR280 million (US\$310 million) in grants for standalone energy storage projects, thermal energy storage and reversible pumped hydro to go online in Spain launching grants for 600MW of energy storageSpain is launching EUR160 million (US\$170 million) in grants for energy storage projects, aiming to fund 600MW of projects to go online in . Port of Spain energy storage tender openingThe government of Spain is launching EUR280 million (US\$310 million) in grants for standalone energy storage projects, thermal energy storage and

## standalone energy storage tender price in Spain 2026

reversible pumped hydro to go online in Spain allocates EUR150m for 2.82 GWh of grid-scale, A further 10 thermal storage sites will receive EUR6.48 million and add 88.35 MW/591.27 MWh of capacity to Spain's grid. All the projects will be operational in either or .Spain plans first capacity market auctions for summer Spain's MITECO has opened consultation about the form of a capacity mechanism or capacity market which would guarantee security of electricity supply. Capacity mechanisms pay energy generation and storage What Spain's capacity market means for storageAdding a capacity market into the mix would only increase Spain's attractiveness for energy storage investment. In the UK, the National Grid's capacity market 811 MW/3.6 GWh of storage projects set for Spain's PERTE fundingPending approval, a total of EUR 167.6 million (\$187.1 million) has been allocated towards 46 standalone thermal and electrical energy storage projects, with a cost Energy storage potential in Spain's upcoming renewables auction The first of Spain's new renewable energy auctions is set to take place next week, as the country offers the possibility for bidders to include energy storage in their offers. Spain Launches EUR700 Million Energy Storage Scheme to Spain's Ministry for the Ecological Transition and the Demographic Challenge (MITECO) has announced a major funding initiative worth EUR700 million to boost large-scale Bulgaria's Ministry of Energy opens 3GWh tender for The Bulgarian Ministry of Energy began accepting applications yesterday (21 August) in tenders for 3,000MWh of energy storage capacity. DTE Energy opens RfP for 450 MW of standalone Detroit-based energy company DTE Energy (NYSE:DTE) is seeking to contract battery energy storage capacity from roughly 450 MW of new standalone projects in Michigan. Spain offers EUR 700m in aid for large-scale energy Spain's ministry for the ecological transition said on Friday it will allocate EUR 700 million (USD 799.4m) in grants through competitive tendering to support large-scale energy storage projects in an effort to improve grid Solar-plus-storage projects win 258MW of capacityGermany's second 'Innovation Tender' for clean energy projects combining different technologies has awarded 258MW of capacity to solar-plus-storage across 18 bids. NVVN's 500MWh Storage Tender Breaks New NTPC Vidyut Vyapar Nigam's (NVVN) first standalone energy storage tender has broken new ground with record low tariffs. While the bids come with viability gap funding, even after accounting for that, the winning bids Aurora For stand-alone power storage assets: -- Even though there is distinction between durations, projects with longer duration than 8h are all awarded the same score -- Projects with Spain Introduces Capacity Market The new mechanism, open for public comments until January 29, , aims to ensure energy supply security while stimulating investments in storage technologies and Spanish state providing EUR150 million for co-located energy storageNew energy storage projects co-located with renewables can have 40-65% of investment costs covered by the Spanish government rora For stand-alone power storage assets: -- Even though there is distinction between durations, projects with longer duration than 8h are all awarded the same score -- Projects with Spain Introduces Capacity Market The new mechanism, open for public comments until January 29, , aims to ensure energy supply security while stimulating investments in storage technologies and flexible solutions

## standalone energy storage tender price in Spain 2026

---

such as demand-side management. Unlocking Opportunity Analysing Spain's battery storage landscape LCP Delta and Santander Corporate & Investment Banking Providing insight, analysis and finance to support the global energy transition LCP Bulgaria outlines EU-funded tender for standalone The draft for the RESTORE tender for support to energy storage facilities in the electricity transmission system was issued for public consultation. The Standalone Energy Storage Market in India 1 Key Findings Standalone Energy Storage Systems (ESS) are rapidly emerging as a key market, with 6.1 gigawatts of tenders issued in the first quarter of alone, accounting for 64% of the The New Capacity Market, Key to Battery Deployment in Spain The implementation of the new capacity market in Spain is fundamental for the accelerated development and deployment of battery energy storage systems in the electricity Bulgarian tender awards nearly 10 GWh of energy Bulgaria's standalone energy storage tender, which aimed to procure at least 3 GWh of cumulative usable capacity, ultimately awarded more than three times that amount.
