

# total investment cost of warehouse solar storage project in Indonesia

Are RGE & TotalEnergies co-investing in a solar plant in Indonesia? French energy company TotalEnergies and Singapore-based industrial group RGE have signed a co-investment agreement to develop, build and operate a solar plant with battery energy storage in Riau province, Indonesia. TotalEnergies and RGE signed the agreement through their joint venture Singa Renewables, which they own equally. Who owns a solar-plus-storage plant in Indonesia? TotalEnergies and RGE have signed a co-investment agreement to develop and operate a solar-plus-storage project in Indonesia. The utility-scale plant will be built and managed by Singa Renewables, their equally owned joint venture. Can solar energy be a strategy to meet Indonesia's energy goals? Solar energy can be a strategy to meet this target," said Deon Arinaldo, Program Manager of Energy System Transformation, at the launch of the Indonesia Solar Energy Outlook study report - Breaking the Walls: The Future of Indonesia's Solar Energy and Energy Storage Innovations (15/10/). Where is the best place to get solar energy in Indonesia? On average Indonesia receives between kWh and kWh per m<sup>2</sup> of annual solar energy on a horizontal surface (Global Horizontal Irradiance, GHI). Java, Sulawesi, Bali, and East and West Nusa Tenggara are the best locations for solar PV, while Kalimantan, Sumatra and Papua are less good. Why should ASEAN invest in solar and energy storage? At the same time, it is expected to develop the country's solar and energy storage supply chain capabilities and support wider ASEAN ambitions for cross-border clean energy cooperation and energy integration. How much does a solar PV installation cost? The LCOE for the international benchmark, without PLN charges, is in line with those reported in Singapore for a ground-mounted 5 MW installation, 48.60 US\$/MWh. The tool calculates an IRR of 16.44%, and a pay-back period of 6 years. IEA estimated that in , Solar PV installations in Indonesia had an LCOE of 80 US\$/MWh. TotalEnergies and electricity binning renewables (solar, onshore and offshore wind) and flexible assets (CCGT, storage) to deliver clean firm power to its customers. By the end of , TotalEnergies' gross renewable electricity generation installed capacity had reached 26 GW. TotalEnergies and electricity binning renewables (solar, onshore and offshore wind) and flexible assets (CCGT, storage) to deliver clean firm power to its customers. By the end of , TotalEnergies' gross renewable electricity generation installed capacity had reached 26 GW. ed in Singapore, RGE is a global group of companies in the bio-based resources and energy sectors, serving over 100 markets worldwide. With more than US\$35 billion in assets and a workforce of 80,000 employees, our operations span across Indonesia, China, Brazil, Canada, Spain and Malaysia. As a TotalEnergies and RGE signed a co-investment agreement for their solar and storage project in Riau during French President Emmanuel Macron's state visit to Indonesia recently. (Photo Credit: RGE) French energy group TotalEnergies will build a 1 GW solar energy plant, along with a battery energy Jakarta, October 15, - Throughout , global renewable energy capacity will increase by 473 GW, with 74 percent or 346 GW coming from solar energy. This achievement shows that solar energy can be a key strategy for reducing emissions in the electricity sector. "In COP 28 in , a global Imelda Tanoto, Managing Director at RGE (right) and Helle Kristoffersen, President Asia and Member of the Executive Committee at TotalEnergies (left)
